Community proximity and scarcity-weighted water burden by watershed
2030 moderate WSF (m³-eq/year)
Unique nearby population within 5 km
17020015
15010015
15050100
15070102
16020201
15060106
Population is area-weighted and counted once within each watershed's dissolved 5-km site buffers; proximity does not imply direct exposure.
